

# LTL RATE QUOTES

at Averitt.com

Averitt's online rate quote tools help save you time and money when quoting your shipments. You can see many options when completing an LTL rate quote online.

## IT'S EASY...

- **Quickly** see the estimated service days to your destination.
- **View** details on your quote, including breakdown by class, fuel and accessorials.
- **See** rate quotes for both Standard Delivery and for Guaranteed Delivery.
- **Convert** your rate quote into a pickup request with a single click.
- **Create** all of your shipping documents and labels from the same data, saving you even more time and reducing the opportunity for costly errors.
- **Ensure** you have the most accurate rate quote possible with our Shipment Density Calculator – and see if your shipment would move better via volume LTL or even truckload.

This shipment was rated using the following: Tariff = ABATE, Rate Base = 350, and Gross Minimum = 89.00.  
 Note: Your shipment may be subject to liability limitations. Please refer to the Averitt Express Rules Tariff, which is available on our website, [www.averitt.com](#).  
 Check your shipment's density to determine if it qualifies for volume shipping rates.  
 If shipment exceeds 12 standard non-stackable skids or 24 linear feet of trailer space, this rate will not apply. You would need to obtain a Volume Rate online or by calling our rate quote team. Additionally, if shipment exceeds 750 cubic feet, it could be considered cubic capacity, and you should contact our rate team. Call 800-283-7488 and choose the rate quote option.  
 Note: ShipPlus is an electronic Bill Of Lading and Shipping system. ShipPlus has no correlation to this Online Rate Quote system. Rate results reflected here may differ to actual invoiced amounts depending on the information provided within each Bill Of Lading.  
 International services to Mexico and all other countries are available also. Please send quotation requests to [international@averittexpress.com](#) or call 866-208-0167.
